PRODUCT DESCRIPTION

FAB-Defense is proud to introduce our newest product in the Scorpion® line of holsters, the Scorpion Covert.

The Covert has a special slim design for the thinnest IWB holster possible, with rounded back for comfortable carry and a thin profile made from advanced polymer materials that enable a thin, flexible yet durable holster with an average material thickness of 1.9 mm (0.07 inch).

The interchangeable belt clip allows tucking the shirt in for complete concealment and is complemented by the removable Covert Spacer that enables to add another level of concealment by further tucking the gun closer to the body.

Finally, the passive retention enables fine tuning the correct retention that fits the individual shooter.

Advantages:

Thin profile, average material thickness of 1.9 mm (0.07 inch)

Adjustable passive retention

Ergonomic rounded sweat guard with integrated "combat cut"

Replaceable belt clip for 1.5 and 1.75 inch belts

Removable Covert Spacer for additional concealment

Available for Right Hand or Left Hand configuration (Covert G43 is available for Right Hand configuration only, at the moment)

A single Covert G-9 holster will fit all of the following handguns:

Glock 17, 19, 19X, 22, 23, 26, 27, 31, 32, 33 & 45

CZ: P-10 C

H&K: VP9

Walther: P99

FN: FNS-9, FNS-9 Compact

Ruger: SR40

Grand Power: K100, T12

Schmeisser: SLP-9

FMK: 9C1 G2

The Covert G43 holster will fit the Glock G43 only.
